PLANNING YOUR COURSE OF STUDY

Students in Year 11 – 2021

Entry into Year 11 classes requires students to reach a certain standard in Year 10. Your Year 10 examination results can be used to confirm your place in the appropriate level class.

You are required to take an English, Science and Mathematics course. The HoD's of English, Science and Mathematics will determine the level of class for you.

Choose the subjects that are appropriate for you and meet the requirements of your future pathway. Think ahead to Year 12 and 13 and be careful not to limit your options.

Select an English, Mathematics, and Science subject then 3 additional subjects and a reserve.

Students in Year 12 – 2021

No subjects are compulsory. You can multi-level your programme but timetable constraints may restrict some multi-levelling between Years 12 and 13.

Some subjects have pre-requisites (what you must have in order to take the subject). Go to the Curriculum Guide to check these.

Choose the subjects that are appropriate for you and meet the requirements of your future pathway. Think ahead to Year 13 and be careful not to limit your options.

All students must select 6 subjects and a reserve.

Students in Year 13 – 2021

No subjects are compulsory. You can multi-level your programme but timetable constraints may restrict some multi-levelling between Years 12 and 13.

Choose the subjects that are appropriate for you and meet the requirements of your future pathway. Think ahead to Tertiary study and be careful not to limit your options.

Realise that most subjects have prerequisites. For example you may require a certain level of attainment in NCEA Level 1 and 2, to progress to Level 3.

Students select 6 additional subjects and a reserve.

NCEA Requirements

Please refer to NZQA booklets for more detailed info including how to gain course and certificate endorsements.

NCEA level	Requirements
